**Galaxy Audio's ever popular AS-1800 Wireless Personal Monitor adds a New frequency band.**

The new frequency band (B2) fills the need for more frequency flexibility in the Wireless Personal Monitors by adding an additional 640 frequencies to the lineup.

The AS-1800 Wireless Personal Monitor is designed with the professional in mind, yet at an affordable price. With 640 selectable frequencies in each band and a Magnesium metal-alloy body pack that has diversity reception, the AS-1800 was built to handle a harsh life on the road. Other features of the AS-1800 include Mixed Mono for blending multiple source inputs on the body pack, the selectable output of the transmitter and naming function for easy identification. All AS-1800 include rack ears, earbuds, and a carry case.

**AS-1800 Street Price \$749.99**  
**Availability: Currently Shipping**
