

# MICROPHONE

**RT-66/RT-66S**

The RT-66 employs a cardioid dynamic cartridge, reducing noise from the side and back of the microphone. This improves the desired sound directed at the microphone. A strong, wire-mesh, spherical front grille contains a highly effective wind and "pop" filter and internal features minimize handling noise. Built to handle day to day use, the RT-66 microphone provides excellent vocal or speech reproduction on lecterns and stages, and is a popular choice for use in live music performance, public auditoriums, churches, convention halls, and schools.

Available with or without a switch, the RT-66 provides the flexibility for any performance needs. Other accessories of the RT-66 include a 15' cable, with the choice of XLR - XLR or XLR - 1/4" connectors, microphone clip and carry bag.

**RT-66**

**RT-66S**  
(with mic switch)

- **Uni-directional**
- **Dynamic Microphone**
- **On/Off Switch (RT-66S only)**
- **Clip and Bag Included**
