RM-IRD

Rackmount Series Internet Radio with RDS Tuner Media Player

RM-IRD

RM-IRD Internet Radio Player

(Front)

(Back)

The RM-IRD Internet Radio Player is unlike any other media player available. Now with an app that gives you control right from any Android Smart Phone or Tablet running Android™ 2.2 or later and or any iOS Smart Phone or Tablet running iOS 7 or later. (Not compatible with previous red-faced RM-IRD models)

The RM-IRD has access to 20,000 stations, broadcasts, and podcasts. The RM-IRD connects to a router via Ethernet cable or WiFi. From there, you have access to a seemingly unlimited number of local, national, and international stations.

Set up and navigation are easy with the 2.7-inch display, which will display up to 6 lines of text. Through the menu screen, you have access to a selection of numerous modes; Equalizer, Network access, Time/Date, Language, etc.

The RM-IRD features many convenient features, like FM w/RDS, Clock w/auto update, Sleep/Snooze, Alarm, permission password, among many others. The RM-IRD features easy to locate and read function buttons on the front panel. These buttons can be illuminated by pushing the LED button on the front panel. This makes for easy controlling in a dark room or when in a rack.

The RM-IRD can share media with other devices on your server/network. The RM-IRD can access files and playlists from Windows Media Player. This allows you to set a playlist on your computer and then have it broadcast through a distributed audio system. Additionally, the RM-IRD can be linked with the Internet Radio Portal/Frontier Silicon Internet Radio Portal. This allows you access to set up favorites and browse through thousands of online stations.

- Internet Radio with Access to Over 20k Stations
- Control from your Smart Device
- Wired or Wireless Ethernet
- FM with RDS (Radio Data System)
- 1/8" Stereo AUX Input for External Player
- USB Port
- Media Sharing from PC
- Store Multiple Network Profiles
- IR Remote Control
- 1U Rack Space

Download the UNDOK App to control the RM-IRD remotely from your smart device.

- 1 Rack Space

Scan for Info

The RM-CDU is a CD, USB, & SD card player with built in Radio Data System (RDS) Tuner all in one rack space. The RM-CDU has FM/AM memory presets, Random, Repeat, Folder advance, Mute, and Program function.

The RM-CDU will accept up to a 16GB USB, SD card/SDHC, and will play media from CD, CD-R, CD-RW, or MP3 disk, in either MP3 or WMA format.

The RM-CDU features easy to locate and read function buttons on the front panel. These buttons can be illuminated by pushing the LED button on the front panel. This makes for easy controlling in a dark room or when in a rack.

The RM-CDU includes a remote control. The RM-CDU can be powered from 110-120VAC or 13.2VDC.

RM-RDSTNR

RM-RDSTNR RDS Tuner

(Front)

(Back)

- AM/FM Tuner with Radio Data System
- FM 87.5MHz – 108MHz
AM 530kHz – 1720kHz
- 30 presets: FM 1 x 10
FM 2 x 10 / AM x 10
- Front Panel 1/8" Stereo AUX Input for External Player
- Switchable 110-120VAC 60Hz or 220-240VAC 50Hz
- IR Remote Control
- 1 Rack Space

Scan for Info

The RM-RDSTNR is a professional grade RDS Tuner in a single rack space. The RM-RDSTNR is perfect for permanent Pro A/V installations and touring. Large illuminated buttons are visible in a dark room or when installed in a rack. The illumination can be defeated by a switch on the front panel. The all metal, 1U rack mount chassis is ruggedly built for the road.

The RM-RDSTNR AM/FM tuner includes Radio Data System (RDS) which displays Artist and Song Title information on the front panel display. The 1/8" AUX jack on the front panel allows for the connection of MP3 players, cell phones, or other media devices. The included remote accesses features such FM w/RDS and AM Bands, Sleep, Traffic Auto Scan, Program Type and more.
