Galaxy Audio helps Weird Al Yankovic's keyboard director, the Great Rubén Valtierra's, dreams come true!

“After years of wishing for a small powered speaker for my small private gigs and rehearsals, my dreams have been answered a hundredfold.

The Galaxy PA6S is simply the best small monitoring system that I have ever heard that is on the market today.

Transparent and beyond powerful, the PA6S's deliver brilliance and a bottom not to be expected in such a small package.

I am able to play 6-7 note Full piano chords, organ and synth leads at sustained high levels without ANY distortion, yet maintaining a brilliant clarity that fills rooms much larger than I thought capable of.”

Nothing... I mean NOTHING, gets close!

I, am a Galaxy fan for Life!”

Sincerely,

Rubén Valtierra
