# TRAVELER SERIES

## Introduction to the All-Inclusive Battery Operated Portable PA Systems

The Traveler® Series is a portable lightweight, “all-in-one” PA system that allows for a quick and uncomplicated setup. All Traveler® Series Speakers have the ability to run on AC or battery power, and come standard with a built-in battery and charger. The Traveler® Series offer options such as built-in wireless microphones, handheld and headset microphone transmitters. Other options for the Traveler® Series include multiple CD and media players. Additionally, the TV10 and TV8 also have the ability to transmit voice and music to multiple satellite speakers, with optional wireless transmitters and receivers.

Whether it is for a school, House of Worship, emergency personnel, corporate function, fairground, auctioneer, graveside services, or aerobics instructor, the Traveler® Series has the portable PA to fit your needs. The TV10 and TV8 can be mounted on a speaker stand and the TV5i and TV5X can be mounted on a mic stand or the SST-TV5 Tripod. The TV10 and TV8 have built-in wheels and a handle for easy transportation, and all models have an optional protective slip cover.

All Travelers® include a Universal Power Supply/Battery Charger, allowing the Traveler® to be recharged anywhere in the world. The Traveler® will operate on AC power indefinitely, as well as battery power for 6-16 hours depending on the model and usage\*\*. A full recharge of the batteries takes about 6-8 hours. The Travelers® may be operated while recharging the batteries. If a power failure occurs when operating on AC, the Traveler® will not have any interruption in audio and will continue to perform until batteries are exhausted.

All Travelers® include convenient built-in Voice Priority. When activated, Voice Priority will lower the volume of the built-in players' music when it receives a signal from a wireless Traveler® microphone, allowing announcements to be made without adjusting the volume of your Traveler®.

Say goodbye to the hassle of cables, docks, and cradles. The TV10, TV8, and TV5i all have built-in Bluetooth®, allowing you to control audio from your Bluetooth® enabled device.

\*A Limited 90 Day Warranty Applies to Rechargeable Batteries

\*\*Time will vary depending on program

## All-Inclusive Battery Operated Portable PA System

### Travelers

#### TV10 10" All-Inclusive Battery Operated Portable PA System

Built-in  
Bluetooth® Receiver

TV-REC &/or TV-DREC  
Up to 4 wireless receivers

Media slot for one of the following:  
**RM-CD**.....CD/MP3/SD/USB Player,  
**RM-CDV**.....DVD/VCD/CDG/JPG/CD/  
MP3/SD/USB Player

AS-TVTX Transmitter for optional  
transmitting to multiple satellite  
speakers.

Master Control Panel

Batteries, Charger and  
Universal Power Supply

- 100 Watts/150 Watts Peak
- 10" Woofer/1" Horn
- Built-in Battery and Charger
- 4 Wireless Microphones Optional
- 2 Microphone Inputs 1/4" & XLR / 1/4" Combo
- RCA & 1/8" Outputs
- Master Volume Control
- Built-in Bluetooth®
- Optional Media Player
- Universal Power Supply
- Four-bar battery Indicator
- Voice Priority
- Built-in Wheels and Handle
- Battery Operation: 7.5-16 hours
- Speaker Stand Mount

**CROWD COVERAGE**  
**1500+**

This self-powered portable PA system, has the most extensive audience coverage of the entire Traveler® line. Up to 1500+ capacity can be addressed with a single 150 watt TV10 system. The built-in handle and wheels make the unit easy to transport. The TV10 can be configured with up to four UHF 96 channel wireless receivers, allowing up to four wireless microphones to be used simultaneously. Features of the TV10 include; 4 inputs, each with separate volume controls, built-in Bluetooth®, 2 band EQ, and master volume. Audio outputs include a dual RCA line out and a 1/8" Aux line out. The TV10 features a voice priority button, which automatically reduces the volume of the media player, Bluetooth® and line level input when it receives a transmission from a wireless or wired handheld microphone (either plugged into the unit or an installed wireless system). This allows for announcements to be made without being overpowered by a music program playing through the media devices. The voice priority can be turned on or off at any time.

#### TV8 8" All-Inclusive Battery Operated Portable PA System

Built-in  
Bluetooth® Receiver

TV5-REC &/or TV5-DREC  
Up to 4 wireless receivers

Media slot for one of the following:  
**RM-CD**.....CD/MP3/SD/USB Player,  
**RM-CDV**.....DVD/VCD/CDG/JPG/CD/  
MP3/SD/USB Player

Master Control Panel

AS-TV8TX Transmitter for optional  
transmitting to multiple  
satellite speakers.

Universal Power Supply

- 80 Watts/120 Watts Peak
- 8" Woofer/1" Horn
- Built-in Battery and Charger
- 4 Wireless Microphones Optional
- 2 Microphone Inputs 1/4" & XLR / 1/4" Combo
- RCA Line in w/ Volume Control
- RCA & 1/8" Outputs
- Master Volume Control
- Built-in Bluetooth®
- Optional Media Player
- Universal Power Supply
- Four-bar battery Indicator
- Voice Priority
- Built-in Wheels and Handle
- Battery Operation: 7.5-16 hours
- Speaker Stand Mount

**CROWD COVERAGE**  
**600+**

This self-powered portable PA system, has a coverage capacity of up to 600 people. Designed smaller and lighter than the TV10, the TV8 still includes the built-in handle and wheels for easy transport and set up. The TV8 can also be configured with up to four UHF 96 channel wireless receivers, allowing up to four wireless microphones to be used simultaneously. Features of the TV8 include a 120 watt amplifier, 4 inputs, each with their own volume control, built-in Bluetooth®, 2 band EQ, and master volume. Audio outputs include a dual RCA line out and a 1/8" Aux line out. The TV8 features a voice priority button, which automatically reduces the volume of the media player, Bluetooth® and line level input when it receives a transmission from a wireless or wired handheld microphone (either plugged into the unit or an installed wireless system). This allows for announcements to be made without being overpowered by a music program playing through the media devices. The voice priority can be turned on or off.

# TV5i & TV5X

## All-Inclusive Battery Operated Portable PA System

### Travelers

#### TV5i 5" All-Inclusive Battery Operated Portable PA System

 Built-in Bluetooth® Receiver

TV5-REC, TV5-DREC, TV5MP3  
&lor TV5-RECBT  
Up to 3 wireless receivers

Master Control Panel with Battery Level, Mic in and Built-in Bluetooth Receiver

Rechargeable Battery

Universal Power Supply

- 40 Watts/60 Watts Peak
- 5" Neodymium Woofer and 1" Tweeter
- Built-in Battery and Charger
- Up to 3 Wireless Microphones Optional
- XLR / 1/4" Combo Microphone Input
- 1/8" Output
- Master Volume Control
- Built-in Bluetooth® Receiver
- Optional Media Player
- Universal Power Supply
- Four-bar battery Indicator
- Voice Priority
- Small in Size for Portability
- Battery Operation: 6.5-11 hours
- Tripod/Mic Stand Mount

**CROWD COVERAGE**  
**400+**

The TV5i has a coverage capacity of up to 400 people and includes a built-in 40 watt power amplifier with a 5" woofer, 1" tweeter, 2 band EQ and has built-in Bluetooth®. The TV5i can be configured with up to three UHF 96 channel wireless receivers. Each UHF receiver has two different handheld mics and two body pack transmitters to choose from. There is also an optional MP3 player available which can play MP3s from USB or SD card. The TV5i has a built-in XLR/1/4" combo jack with volume control, 1/8" input and output, and 4 bar battery level indicator. The built-in voice priority, when activated, will lower the volume of the music when it receives a signal from a wireless or wired handheld microphone.

#### TV5X 5" All-Inclusive Battery Operated Portable PA System

 Available with Bluetooth® Receiver

TV5-REC, TV5-DREC, TV5MP3  
&lor TV5-RECBT  
Up to 3 wireless receivers

Master Control Panel with Battery Level, Mic in

Rechargeable Battery & Charger

- 40 Watts/60 Watts Peak
- 5" Neodymium Speaker
- Built-in Battery and Charger
- Up to 3 Wireless Microphones Optional
- One 1/4" Wired Microphone Input
- 1/8" Output
- Master Volume Control
- Optional Bluetooth® Receiver
- Optional Media Player
- Universal Power Supply
- Four-bar battery Indicator
- Voice Priority
- Small in Size for Portability
- Built in Shoulder Strap
- Battery Operation: 6.5-11 hours
- Tripod/Mic Stand Mount

**CROWD COVERAGE**  
**175+**

The TV5X has a coverage capacity of up to 175 people and includes a built-in 40 watt power amplifier with a 5" full range woofer and tone control. The TV5X can be configured with up to three UHF 96 channel wireless receivers or a Bluetooth® receiver. Each UHF receiver has two different handheld mics and two body pack transmitters to choose from. There is also an optional MP3 player available which can play MP3s from USB or SD card. The TV5X has a 1/4" mic input with volume control, 1/8" input and output, and 4 bar battery level indicator. The built-in voice priority, when activated, will lower the volume of the music when it receives a transmission from a wireless or wired handheld microphone.

# ACCESSORIES

## Body Packs, Handhelds, & Optional DC Chargers

### Optional Accessories

#### TVMBP

##### Body Pack Transmitter

- 96 Selectable Channels
- Lightweight Compact Size
- LCD Display
- Belt Clip
- 3-Bar Battery Condition Indicator
- Mute Switch
- Mic Input
- Aux Input
- Functions from 2 AA Batteries (about 14 hours)
- DC Charging Input
- 4.4 oz (170 g)

#### TVBPT

##### Pendant Transmitter

- 96 Selectable Channels
- Lightweight Compact Size
- Soft Touch Buttons
- Back Lit LCD Display
- Belt Clip & Lanyard
- Built in Microphone
- External Mic Input
- Aux Input
- Two power settings 10mW and 1mW
- Rechargeable Lithium Battery
- Single Charger Included
- Contacts for Optional Cradle Charger
- 2.64 oz (75 g)

#### TVHH

##### Dynamic Handheld Mic

- 96 Selectable Channels
- Dynamic Capsule
- Hi/Low Volume + Mute Switch
- Back Lit LCD Display
- Built-in-Antenna
- 3-Bar Battery Condition Indicator
- Functions from 2 AA Batteries (about 14 hours)
- DC Charging Input
- 8.3 oz (280 g)

#### TVH2

##### Condenser Handheld Mic

- 96 Selectable Channels
- Condenser Handheld
- Lightweight Compact Size
- Talk/Mute Soft Touch Button
- Back Lit LCD Display
- 150' Range
- Two Power Settings 10mW, 1mW
- Runs on 2 AA Batteries (about 12-16 hrs)
- Charging Base Terminals
- 3.2 oz (90.7 g)

### Optional DC Chargers

#### AS-DCTVHH

##### Charger for Handheld

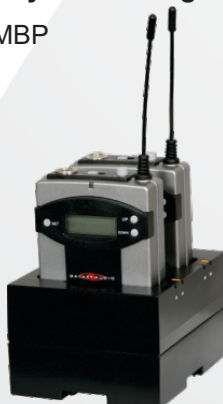

- For TVHH & TVH2

#### AS-DCTVMBP

##### Dual Body Pack Charger

- For TVMBP

#### AS-DCBPTR

##### Dual Charger for Pendant Body Pack & Handheld

- For TVBPT & TVH2

# ACCESSORIES

## Sand Bag, Water Bag, Speaker Stands, Traveler Bags & Traveler Slip Covers

### Optional Accessories

#### SST-TV5

##### TV5 Tripod Stand

- Tripod Legs
- Metal Clamp
- 40"-86" Height Range
- 170 lb Load Capacity
- Height-Security System with Stop Bolt and Locking Screw

#### SST-35

##### Speaker Stand

- Tripod Legs
- Extends up to 76"
- Holds up to 70 lbs
- Pole Diameter: 1 3/8" (35.30 mm)

#### SST-45

##### Speaker Stand

- Tripod Legs
- Metal Construction
- Extends up to 81"
- Holds up to 70 lbs
- Pole Diameter: 1 3/8" (35.30 mm)

#### LSR38

##### Sand/Water Lifesaver Bag

- Can be filled with sand or water
- Unique round design allows LSR38 to be placed on Mic, Speaker, or Lighting Stand
- Weighs 22 lbs with Water\*
- Weighs 38 lbs with Sand\*
- 16" O.D. x 6" I.D. x 3" Thick

### Traveler Bags & Slip Covers

#### TV5XBag

##### TV5X Carry Bag

- Mesh front so audio can pass thru while covering unit.
- Easy access to controls & power input
- Convenient Detachable Pocket
- Access side can be unzipped and velcro open

#### BAGTV

##### Traveler Carry Bag

- Outside & Inside Storage Pockets
- Constructed of High Quality Heavy Duty Water Resistant Nylon
- Retractable Handle
- Durable Wheels  
(Compatible with TV5i & TV5X)

#### TV5iBag

##### TV5i Carry Bag

- Mesh front so audio can pass thru while covering unit.
- Easy access to controls & power input
- Convenient sidepockets for storage
- Access side can be unzipped and velcro open

#### SLIP COVER TV8CVR & AS-TV10COVER

##### Slip Covers for TV8 and TV10

- Mesh front so audio can pass thru while covering unit.
- Easy access to controls & power input
- Convenient sidepockets for storage
- Access side can be unzipped and velcro open

### 96 Channel Wireless Transmitter AS-TXRM

The Audio Link Transmitter will transmit audio signal to any of our Traveler® Series Speakers and the AS-TVBP. It is designed to take a mixed signal and send it to the speakers wirelessly. The AS-TXRM can also act as the mixer; it's easy with a XLR, 1/4", and RCA inputs between two channels, each having their own volume control. A microphone, CD player, MP3 player, etc can be inserted and transmitted to your speakers. The AS-TXRM can be rack mounted or placed on a table top.
