The new AS-1400 is the latest addition to Galaxy Audio’s highly acclaimed line of Wireless Personal Monitors, offering high end features and performance at a very affordable price. The transmitter features stereo XLR/1/4" inputs, headphone output with volume control, input level control, and a LCD display for channel and input level. The Receiver features Mixed Mono Mode for your own personal mix, volume, and a LCD display with channel, battery level, and RF level. Galaxy Audio’s new comfort EB4 premium ear buds feature titanium drivers, extended bass response, aluminum alloy construction, and now come standard with all WPM models. The AS-1400 is perfect for the working musician, house of worship, or any application requiring an affordable, reliable WPM system.

The Mixed Mono Mode allows performers to adjust the balance of the Left and Right audio signals sent from the transmitter directly on the body pack.

1) The performers can have their vocals in Input 1 and the band mix in Input 2 and adjust the volume of each independently to create their own personal mix, or

2) You can send two different monitor mixes from the board so each performer can decide which mix they want to hear on their belt pack.
